

THE CONCORDIA PROJECT HARNESSING THE POWER OF DIGITAL MEDIA TOOLS TO PREVENT THE RADICALIZATION OF VULNERABLE YOUTH

The CONCORDIA project, with its outputs, addresses the radicalization threat to vulnerable young people throughout Europe. This issue is perhaps one of the most serious threats and one of the most damaging to the entire European project and family of Nations.

CONCORDIA developed a bespoke continuous professional development training course to support youth professionals and other front-line workers respond to the threat of radicalization through the very channels where it currently flourishes.

The completely new curriculum will empower youth professionals and other front-line staff to deal with the threat of radicalization and to **use readily available digital media tools and platforms.**

All CONCORDIA outputs are now available for download on the project website!
